1. I am again returning the attached subject file for further consideration. My memorandum of 5 December 1956 did not request reconsideration of the recommendation that a group award be given. It was thought that since so much time had already been spent on this case, and since justifications for individual submissions would be no stronger nor no weaker than the justification submitted for the group, it would be in the interest of all concerned if the Board would give an indication as to whether or not it felt the justification warranted the submission of individual recommendations.

2. As indicated in my memorandum, if the Board felt that the justification merited favorable consideration, then the Office of Training would be requested to submit individual recommendations on each individual. It would be appreciated if the Board would furnish this Office its comments. The Board's comments will be viewed as informal and not considered as final approval on any individual submission at a later date.
